

We present you the **AVSN Atlantis** solution, a product of the company AVSN. Atlantis is an interactive hotel TV system, used for hotel TV sets management, entirely developed by the company AVSN d.o.o.. The system offers different features, such as **hotel info. on demand,**
personal welcome message,
private messaging to an individual hotel guest

,
an alarm clock,
enabled either remotely by the reception, or by a guest from within the room.

The leading goals within the development of the AVSN Atlantis system are **ease of use** and **flexibility**
